1. School Philosophy

1.1 Vision and Mission

School's Vision
To create a learning community that empowers students to be lifelong learners and global citizens prepared for success in the 21st century.

School's Mission
Berkeley provides all students with a rigorous, personalized and modern education in a safe and supportive learning environment, empowering students to develop confidence, responsibility, critical thinking, creativity, and problem-solving skills needed to succeed in college, careers, and life, and to contribute to the ever-changing local and global community.

1.2 School Motto

Dream, Believe, Achieve - Inspiring students to set ambitious goals, maintain confidence in their abilities, and work persistently toward meaningful accomplishments.

1.3 School Philosophy: Learning with Lasting Impact

Berkeley International School recognizes that meaningful education extends beyond subject knowledge to develop a broad range of skills, values, attitudes, and behaviors that prepare students for life success.

1.4 Cambridge Learner Attributes

Our curriculum fosters five essential attributes in students:

- **Responsible**: Understanding actions' impacts on others and the environment - Teaching students ethical decision-making and consideration of how their choices affect communities and ecosystems.
- **Reflective**: Evaluating personal learning strategies and growth - Encouraging students to regularly assess their progress, identify strengths and weaknesses, and adjust learning approaches accordingly.
- **Confident**: Exploring ideas critically and communicating views effectively - Developing students' ability to analyze concepts from multiple perspectives and express opinions with clarity and conviction.
- **Innovative**: Meeting challenges with creativity and resourcefulness - Nurturing students' capacity to generate original solutions, take thoughtful risks, and adapt to new situations with flexibility.
- **Engaged**: Demonstrating curiosity and appreciating diverse perspectives - Fostering students' active participation in learning through questioning, exploration, and respectful engagement with different worldviews.

---

2. Curriculum Framework

2.1 Cambridge Curriculum and Project-Based Learning Integration

Our curriculum combines the academic rigor of Cambridge programs with project-based learning (PBL) to create an active learning environment that:

- **Engages students in real-world challenges** - Connecting classroom learning to authentic situations that require practical application of knowledge.
- **Develops critical thinking and problem-solving skills** - Training students to analyze information, evaluate evidence, and create effective solutions to complex problems.
- **Fosters independent thinking and research skills** - Building students' capacity to formulate questions, locate relevant information, and draw reasoned conclusions.
- **Builds collaborative capabilities** - Strengthening students' ability to work effectively in teams, share responsibility, and achieve common goals.

2.2 Core Learning Objectives

- **Foster a love of learning** - Creating classroom environments and experiences that generate enthusiasm and intrinsic motivation for knowledge acquisition.
- **Develop strong academic foundations** - Building comprehensive subject knowledge that supports advanced study and application across disciplines.
- **Nurture critical thinking and problem-solving** - Teaching systematic approaches to analyzing challenges and creating effective solutions.
- **Promote responsible global citizenship** - Developing awareness of global issues and encouraging active participation in community improvement.
- **Embrace cultural understanding** - Cultivating appreciation for diverse perspectives, traditions, and values across different societies.

2.3 Core Subject Development

Our curriculum develops deep knowledge and skills across:

- **Language Arts**: Khmer, English, and Chinese communication skills - Developing proficiency in reading, writing, speaking, and listening across multiple languages to support global communication.
- **Mathematics**: Strong foundation in mathematical concepts and problem-solving - Building computational fluency, logical reasoning, and ability to apply mathematical thinking to real-world situations.
- **Science**: Physics, Chemistry, Biology through inquiry-based approaches - Encouraging scientific investigation, hypothesis testing, and understanding of fundamental principles governing the natural world.
- **Global Perspectives**: Integrated History, Geography, and Civics education - Exploring the interconnected nature of human societies across time and space to develop contextual understanding of contemporary issues.

- **Information and Communication Technology (ICT)**: Developing digital literacy - Building technical competence with digital tools and critical awareness of information sources in the digital age.

2.4 Co-Curricular Disciplines

- **Physical Education**: Promoting healthy lifestyles and physical fitness - Developing motor skills, health knowledge, and positive attitudes toward lifelong physical activity.
- **Art:** Encouraging creativity and self-expression through various visual media - Enhancing observational skills, cultural awareness, and appreciation of aesthetics.
- **Music:** Fostering musical skills and developing teamwork, and emotional expression through performance and listening experiences.

---

3. Academic Programs and Pathways

3.1 Academic Calendar and Assessment Schedule

Academic Year Structure:

Academic year runs from August 4th to May 30th - Providing a full 10-month instructional period aligned with international school calendars.

→ **Term 1**: August 04 - October 03, 2025 (40 instructional days)
→ **Term 2**: October 06 - December 19, 2025 (50 instructional days)
→ **Term 3**: January 08 - March 13 (42 instructional days)
→ **Term 4**: March 16 - June 05, 2026 (52 instructional days)
→ **Total instructional days:** 184 days
→ **Cambridge Checkpoint examinations administered in June** - Offering dedicated assessment period following completion of instructional year.

Cambridge Educational Pathways:

Berkeley International School follows the complete Cambridge educational pathway, providing seamless progression through internationally recognized stages:

- **Cambridge Early Years (Ages 0.5-5)** - Foundation stage focusing on holistic development through play-based learning
- **Cambridge Primary (Ages 5-11, Years 1-6)** - Building fundamental skills with Cambridge Primary Checkpoint at age 11
- **Cambridge Lower Secondary (Ages 11-14, Years 7-9)** - Developing subject expertise with Cambridge Lower Secondary Checkpoint at age 14
- **Cambridge Upper Secondary (Ages 14-16, Years 10-11)** - Specialization through Cambridge IGCSE qualifications
- **Future Pathway Development -** Plans for Cambridge Advanced (A Levels) to complete the full educational continuum

Programs Structure

Dual curriculum structure by age			
Age	**Cambridge Year level**	**Khmer Grade Level**	**Note**
2	**Pre-nursery**	**Pre-K**	Readiness assessment, Portfolio-based evaluation
3	**Nursery**	**K1**	Pre-literacy and numeracy
4	**Reception**	**K2**	School readiness evaluation
5	**Year 1**	**K3**	Foundational literacy and numeracy assessment **Stage 1**
6	**Year 2**	**Grade 1**	Reading fluency checkpoint, Basic math skills evaluation **Stage 2**
7	**Year 3**	**Grade 2**	Comprehensive assessment in English, Math, Science **Stage 3**
8	**Year 4**	**Grade 3**	Progress monitoring assessment, Critical thinking evaluation - **Stage 4**
9	**Year 5**	**Grade 4**	Pre-checkpoint preparation assessment **Stage 5**
10	**Year 6**	**Grade 5**	**Primary Checkpoint Exam** - Cambridge Primary Checkpoint (English, Math, Science)
11	**Year 7**	**Grade 6**	Transition assessment, Subject-specific evaluations **Stage 7**
12	**Year 8**	**Grade 7**	Progress monitoring assessment, Pre-checkpoint preparation - **Stage 8**
13	**Year 9**	**Grade 8**	**Lower Secondary Checkpoint** - Cambridge Lower Secondary Checkpoint (English, Math, Science)
14	**Year 10 (IGCSE Y1)**	**Grade 9**	Prepare for IGCSE
15	**Year 11 (IGCSE Y2)**	**Grade10**	Sit for IGCSE exams
16	**Year 12 (AS Level)**	**Grade 11**	AS level begins
17	**Year 13 (A Level)**	**Grade 12**	Graduate from both systems

Assessment Framework Notes

- **Continuous Assessment**: Ongoing formative assessments throughout all grade levels
- **Portfolio Development**: Maintained from Early Years through Primary
- **External Examinations**: Cambridge Checkpoint and IGCSE examinations
- **Internal Examinations**: School-based summative assessments at key transition points
- **Diagnostic Assessments**: Conducted as needed to support individual learning needs

3.2 Early Years Program (Ages 0.5-5)

- **Approach**: Learning through structured play and age-appropriate activities - Utilizing guided play experiences that naturally develop foundational cognitive, social, and physical skills.
- **Focus**: Three prime areas (Communication and Language, Physical Development, Personal/Social/Emotional Development) and four specific areas (Literacy, Mathematics, Understanding the World, Expressive Arts and Design) - Balancing developmental priorities with introduction to early academic concepts.

3.3 Cambridge Primary (Ages 5-11, Years 1 to 6)

- **Lower Primary (Grades 1-3)**: Emphasis on literacy, numeracy, and exploratory learning - Establishing core skills while nurturing natural curiosity through hands-on discovery activities.
- **Upper Primary (Grades 4-6)**: Expanded subject knowledge with progression to Cambridge Primary Checkpoint assessments - Deepening academic content while introducing more structured assessment approaches.
- **Weekly Structure**: 25 sessions (50 minutes each) including English, Mathematics, Science, Global Perspectives/Our World, ICT, Chinese, Art, Music, PE and enrichment - Providing balanced exposure across core and specialist subjects with dedicated enrichment time.

International Program			
Subject	**Weekly Sessions**	**Hours per Year**	**Suggested by Cambridge**
English	4 sessions	130 hours per year	120-150 hours per year (about 4-5 hours per week)
Mathematics	3 sessions	100 hours a year ***Note:*** *Students also get 100 hours of math in the National Program,*	120-150 hours per year (about 4-5 hours per week)
Science	3 sessions	100 hours per year	45-60 hours per year
Global Perspectives	2 sessions	65 hours per year	
Chinese	2 sessions	65 hours per year	
ICT	2 sessions	65 hours per year	30 hours per year
Art	1 sessions	32.5 hours per year	30 hours per year
Music	1 sessions	32.5 hours per year	30 hours per year
Physical Education	1 sessions	32.5 hours per year	60-90 hours per year
Swimming	1 sessions	32.5 hours per year	
Total	**20 Sessions a week**	**655 hours per year**	

3.4 Cambridge Secondary (Ages 11-16, Years 7 to 11)

- **Lower Secondary (Ages 11-14, Grades 7-9)**:
  - **Core subjects**: English, Mathematics, Science, Global Perspectives, ICT, Chinese - Strengthening fundamental knowledge while developing subject-specific skills and competencies.
  - **Co-curriculum:** Art, Music, PE - Maintaining creative and physical development alongside academic progression.
  - **Culminates in Cambridge Checkpoint assessments** - Providing international benchmarking of student achievement at age 14.

International Program			
Subject	**Weekly Sessions**	**Hours per Year**	**Suggested by Cambridge**
English	4 sessions	130 hours per year	120-150 hours per year (about 4-5 hours per week)
Mathematics	4 sessions	130 hours per year	120-150 hours per year (about 4-5 hours per week)
Science	3 sessions	130 hours per year	45-60 hours per year
Global Perspectives	2 sessions	65 hours per year	
Chinese	2 sessions	65 hours per year	
ICT	2 sessions	65 hours per year	30 hours per year
Art	1 sessions	32.5 hours per year	30 hours per year
Physical Education	1 sessions	32.5 hours per year	60-90 hours per year
Music	1 sessions	32.5 hours per year	
Total	**20 Sessions a week**	**655 hours per year**	

- **Upper Secondary (Ages 14-16, Grades 10-11)**:
    - **IGCSE preparation with specialized subject focus** - Transitioning to more specialized study with increased academic rigor and depth.
    - **Subjects include**: English as Second Language and Literature, Combined Sciences (Biology, Chemistry, Physics), Mathematics, Business Studies, ICT, Chinese - Offering a balanced portfolio of academic and practical subjects.
    - **Co-curricular Subjects include**: Art, Physical Education - Maintaining holistic development while focusing on academic specialization
    - **Examinations administered at the end of Grade 11 -** Aligning with the international Cambridge assessment schedule for maximum preparation time.

International Program Weekly Schedule:

Subject	Weekly Sessions	Hours per Year	Suggested by Cambridge
English	4 sessions	130 hours per year	130–180 hours of guided learning over the course of two years
Mathematics	4 sessions	130 hours per year	
Combined Science	2 sessions	65 hours per year	
Business Studies	2 sessions	65 hours per year	130 hours of guided learning over the course of two years
Global Perspectives	2 sessions	65 hours per year	
Chinese	2 sessions	65 hours per year	
ICT	2 sessions	65 hours per year	30 hours per year
Art	1 sessions	32.5 hours per year	
Physical Education	1 sessions	32.5 hours per year	
Total	**20 Sessions a week**	**655 hours per year**	

Important Note for Secondary School Grading: In Secondary School (Grades 7-11), co-curricular subjects (Art, Music, Physical Education) are assessed for learning purposes but do not appear on report cards or contribute to GPA calculations. Only core academic subjects are included in formal reporting and GPA computation.

3.5 Future Advanced Pathways

Plans for Cambridge Advanced (A Levels) program development to complete the full educational continuum, providing students with comprehensive preparation for university admission globally.

---

4. Assessment and Evaluation

4.1 Assessment Framework

Formative Assessment (ongoing, not graded):

- **Class discussions and participation** - Gathering evidence of understanding through verbal contributions and engagement.
- **Quizzes and short assignments** - Providing regular, low-stakes checkpoints to identify knowledge gaps.
- **Observation of student work** - Collecting qualitative data on process and progress during learning activities.
- **Self-reflection and peer review** - Developing metacognitive skills through structured evaluation of work.

Summative Assessment (graded):

- **Authentic GRASP Performance Tasks (Terms 1-3)** - Assessing application of knowledge through Goal-oriented, Role-based, Audience-specific, Situation-authentic, Product-focused tasks.
- **Multidisciplinary Projects (Terms 1-3)** - Evaluating students' ability to synthesize learning across subject boundaries.
- **Cambridge standardized exams (Term 4)** - Providing international benchmarking and preparation for external assessments.

Reporting Structure:

- **Four terms per academic year** - Creating regular cycles of instruction, assessment, and feedback.
- **Term weighting**: 20% each term, 40% final exams - Balancing ongoing performance with comprehensive end-of-year demonstration of learning.
- **Regular parent-teacher conferences** - Ensuring open communication about student progress and development.
- **Comprehensive report cards** - Providing detailed feedback on academic achievement and learner attributes.

4.2 Grading Policy and Academic Standards

Grade Scale and Performance Indicators

Berkeley International School employs a letter grade system aligned with Cambridge Assessment International Education standards. The grading scale reflects student achievement levels and provides clear indicators of academic performance:

4.3 Grading Policy and Academic Standards

Grade Scale and Performance Indicators

Berkeley International School employs a letter grade system aligned with Cambridge Assessment International Education standards. The grading scale reflects student achievement levels and provides clear indicators of academic performance:

Grading Scale and GPA System:

Grade	Not Yet	D	C	B	B+	A	A+
Score	0% - 59%	60% - 69%	70% - 79%	80% - 84%	85% - 89%	90% - 94%	95%-100%
GPA	0	1.00	2.00	3.00	3.5	3.75	4.00
Description	Achievement does not meet the school's standards	Achievement approaches the school's standards	Achievement meets the school's standard	Achievement meets the school's standards with merit	Achievement exceeds the school's standards	Achievement exceeds the school's standards	Achievement exceeds the school's standards

Grade Definitions:

- **A+ (95-100%)**: Exceptional achievement exceeding school standards
- **A (90-94%)**: Excellence exceeding school standards
- **B+ (85-89%)**: Achievement exceeds school standards
- **B (80-84%)**: Achievement meets school standards with merit
- **C (70-79%)**: Achievement meets school standards
- **D (60-69%)**: Achievement approaches school standards
- **Not Yet (0-59%)**: Achievement does not meet school standards

GPA Calculation Method:

Upper Secondary School (years 10 and 11):

- GPA is calculated as the average of all core academic subject grades using the point values above.
- Co-curricular subjects (Art, Music, Physical Education) do not appear on report cards or contribute to GPA calculations.

Core Academic Subjects for GPA Calculation:

- English
- Mathematics
- Combined Science
- Information and Communication Technology (ICT)
- Chinese
- Global Perspectives
- Business Studies (Grades 10-11 only)

Formula: GPA = Sum of Core Subject Grade Points ÷ Number of Core Subjects

Example Calculation (Grade 10):

- English: Grade A = 3.75 points
- Mathematics: Grade B+ = 3.5 points
- Combined Science: Grade B = 3.0 points
- ICT: Grade A+ = 4.0 points
- Chinese: Grade B+ = 3.5 points
- Global Perspectives: Grade A = 3.75 points
- Business Studies: Grade B = 3.0 points
- Total: (3.75 + 3.5 + 3.0 + 4.0 + 3.5 + 3.75 + 3.0) ÷ 7 = 3.50 GPA

Assessment and Grading Procedures

Grading Timeline:

- **Continuous Assessment**: Ongoing formative evaluations (not graded)
- **Term Assessments**: Summative evaluations at end of each term
- **Final Assessments**: Comprehensive evaluations in Term 4
- **Grade Reporting**: Formal grades issued at conclusion of each term

Grade Weighting Structure:

- **Terms 1-3**: 20% each (60% total)
- **Term 4/Final Assessments**: 40%

Grade Modification and Appeals:

- Parents may request grade conferences within 10 school days of report card distribution
- Formal grade appeals must be submitted in writing to the Academic Office within 15 school days

Reporting and Communication

Report Card Distribution:

- **Full Report Cards**: Comprehensive academic and behavioral assessments at term conclusion
- **Parent-Teacher Conferences**: Scheduled following each report card distribution

Grade Explanation and Context: All report cards include:

- Letter grades with percentage ranges
- Specific comments on progress and areas for improvement
- Next steps and recommendations for continued growth

4.3 Progress Monitoring and Intervention

Academic Support Thresholds:

- **D Grade**: Mandatory academic support and parent conference.
- **Not Yet Grade**: Intensive intervention plan developed with parents and support staff.

Cambridge Preparation Standards:

Students must maintain minimum grade requirements for Cambridge examination eligibility:

- **Cambridge Checkpoint**: Minimum C average in core subjects
- **Cambridge IGCSE**: Minimum C average with no *Not Yet* grades in examination subjects

---

5. Curriculum Implementation

5.1 Teaching and Learning Approaches

- **Individualized Instruction**: Tailored approaches to individual learning needs - Adapting teaching methods and pace to address different learning styles, abilities, and interests.
- **Project-Based Learning**: Real-world projects that develop critical thinking - Engaging students in extended investigations of authentic challenges with tangible outcomes.
- **Active Learning**: Hands-on activities and applied learning experiences - Creating opportunities for students to construct understanding through direct engagement with concepts.
- **Interdisciplinary Connections**: Integration across subject areas - Highlighting relationships between different disciplines to develop holistic understanding of complex topics.

5.2 Technology Integration

- **BYOD Policy**: Managed personal device use for educational purposes - Establishing clear guidelines for appropriate use of student-owned technology in learning contexts.
- **No Mobile Phone Policy**: Maintaining focused learning environments - Minimizing distractions to promote concentration and interpersonal engagement.
- **Digital Platforms**: Google Classroom as primary learning management system - Centralizing resources, assignments, and feedback in a consistent digital environment.
- **Digital Citizenship**: Integrated lessons on responsible technology use - Teaching ethical, safe, and effective practices for participation in digital spaces.

5.3 Extracurricular Activities

- **In-house and external competitions** (sports, chess, spelling bee) - Providing opportunities to develop competitive skills, teamwork, and specialized talents.
- **Art exhibitions and performances** - Showcasing student creativity and building confidence in public presentation.
- **Educational field trips aligned with curriculum objectives** - Extending classroom learning through real-world experiences and cultural engagement.

---

6. Dual Curriculum Structure

6.1 Cambridge International Program

- **English-medium instruction following Cambridge curriculum frameworks**: Providing internationally recognized qualifications and global educational standards.
- **Structured progression through Cambridge Primary, Secondary, and IGCSE programs**: Offering clear educational pathways with international benchmarking.
- **Emphasis on learner-centered approaches and critical thinking skills** - Developing independent, analytical thinkers prepared for global opportunities.

6.2 National Cambodian Program

- **Khmer-medium instruction aligned with Ministry of Education, Youth and Sport requirements** - Ensuring compliance with national educational standards and preserving cultural heritage.
- **Complete coverage of Cambodian curriculum objectives and content** - Preparing students for national examinations and local educational continuity.
- **Integration of traditional Cambodian values and cultural elements** - Fostering strong national identity alongside international perspectives.

6.3 Bilingual Instruction

- **English-medium instruction for Cambridge curriculum** - Developing academic English proficiency through immersive content learning.
- **Khmer-medium instruction for National Curriculum components** - Maintaining cultural identity and meeting local educational requirements.

---

7. Cambridge IGCSE and As level Implementation

7.1 IGCSE Subject Offerings (years 10 and 11)

Berkeley International School offers the following Cambridge IGCSE subjects (with syllabus codes):

- **English as a Second Language (0991)**: Developing practical communication and literary analysis skills - Building English language proficiency for academic and real-world contexts.

- **English Literature (0992)**: Cultivating critical reading and analytical skills - Exploring diverse literary texts to enhance interpretation, evaluation, and appreciation of literature in cultural and historical contexts.

- **Mathematics (0580)**: Building mathematical fluency and problem-solving capabilities - Developing abstract reasoning and application of mathematical concepts to various situations.

- **Sciences - Co-ordinated (9-1) (0973):** Comprehensive exploration of Biology, Chemistry, and Physics - Providing broad scientific literacy across the major scientific disciplines.

- **Business Studies (0986)**: Understanding business operations and decision-making processes - Introducing principles of commerce, management, and entrepreneurship.

- **Information and Communication Technology (0983)**: Developing practical and theoretical technology skills - Balancing technical competence with understanding of social and ethical implications of technology.

- **Cambridge IGCSE Global Perspectives (0457)**

7.2 As Level Subject Offerings (year 12)

Berkeley International School offers the following Cambridge As Level subjects (with syllabus codes):

- **AS English Language (9093)**
- **Mathematics (9709)**
- **Biology (9700)**
- **Cambridge International AS & A Level Business (9609)**
- **Digital Media & Design (9481)**
- **Global Perspectives & Research (9239)**

7.3 Staff Qualifications for IGCSE Delivery

- **All IGCSE and A level teachers hold relevant subject degrees and qualifications** - Ensuring deep content knowledge and pedagogical expertise.

- **Minimum 2 years experience teaching Cambridge curriculum** - Providing familiarity with Cambridge standards and assessment requirements.

- **Regular participation in Cambridge professional development webinars** - Maintaining current content knowledge and pedagogy.

7.4 Resources and Facilities

- **Science**: Fully equipped laboratories for practical investigations with appropriate safety equipment - Supporting hands-on learning and required practical components of science courses.

- **ICT**: Computer laboratory with up-to-date hardware and software aligned with syllabus requirements - Providing technology access for both dedicated ICT courses and cross-curricular applications.

- **Library**: Comprehensive collection of textbooks, reference materials, and digital resources supporting IGCSE syllabi - Offering diverse learning resources beyond classroom materials.

- **Assessment Materials**: Past papers, mark schemes, and examiner reports available to teachers and students - Familiarizing stakeholders with examination format and expectations.

7.5 Examination Administration

- **Examination Officer**: Chanraksmey Khorn
    - Dedicated staff member responsible for exam integrity - Ensuring proper procedures are followed throughout the examination process.
- **Secure Storage**: (Person in Charge: Academic Assistant-Sovanpanha Ngoeuen)
    - Locked facilities for examination materials meeting Cambridge standards - Maintaining confidentiality and security of all assessment materials.
- **Staff Training**: (Person in Charge: Curriculum Coordinator-Martin Islas)
    - Regular updates on examination conduct and procedures - Preparing invigilators and administrators for proper test administration.
- **Malpractice Prevention**: (Person in Charge: Curriculum Coordinator-Martin Islas)
    - Clear protocols and supervisory procedures - Establishing systems to maintain academic integrity and fairness.
- **Access Arrangements**: (Person in Charge: Campus Manager-Sreynich Phorn)
    - Provisions for students requiring special considerations - Ensuring equitable assessment opportunities for all learners.

7.6 Academic Integrity

Berkeley International School is committed to academic integrity in alignment with Cambridge Assessment International Education standards. Academic integrity is defined as:

- **Honesty**: All work submitted is the student's own, with proper acknowledgment of others' ideas and contributions.
- **Trust**: Students and teachers have faith in the fairness of assessment and the validity of results.
- **Fairness**: All students follow the same rules and receive equal opportunities to demonstrate their knowledge.
- **Respect**: Recognition of the intellectual property rights of others through proper citation and acknowledgment.
- **Responsibility**: Students accept accountability for understanding and following academic integrity standards.

Prohibited Conduct:

- **Plagiarism**: Submitting others' work as one's own
- **Collusion**: Inappropriate collaboration on individual assignments
- **Misconduct**: Obtaining unfair advantage during assessments
- **Falsification**: Fabricating data, citations, or other information

Enforcement: Academic integrity violations will be addressed through a graduated response system with educational interventions for first offenses and escalating consequences for repeated violations, including assessment invalidation in accordance with Cambridge regulations. All stakeholders—students, parents, and staff—share responsibility for maintaining academic integrity standards.

7.7 Results Analysis and Improvement

- **Systematic analysis of IGCSE results against global benchmarks** - Evaluating performance relative to international standards.
- **Identification of subject and topic-level strengths and weaknesses** - Pinpointing specific areas for curricular and instructional focus.
- **Individual student performance tracking and intervention** - Providing targeted support based on assessment outcomes.
- **Annual improvement plans based on examination outcomes** - Creating structured approach to program enhancement.

7.8 University Pathways

- **University counseling program supporting IGCSE graduates** - Guiding students through higher education application processes.
- **University visits and career guidance integration** - Connecting current learning to future educational and professional opportunities.

---

8. Quality Assurance

8.1 Teacher Qualifications and Professional Development

Recruitment Standards

- **All teachers have relevant qualifications and experience in Cambridge programs** - Ensuring high-quality instruction from educators with appropriate background knowledge.

Cambridge-Specific Training

- **Regular participation in Cambridge professional development webinars** - Keeping staff updated on curriculum requirements and assessment standards.

In-House Professional Development

School-wide sessions - Building consistent pedagogical approaches across departments and grade levels.

Induction:

- School Policies
- The Cambridge Curriculum and Pathways
- Cambridge Learning Goals
- Cambridge Support Hub, navigation and resources

Term 1:

- Constructivism
- Project Based Learning

Term 2:

- High Order Thinking Skills
- Differentiation

Term 3:

- Total Participation Techniques
- How to Administer Cambridge Exams

Continuous Support

Regular collaboration with curriculum coordinators - Providing ongoing guidance and resources for effective instruction.

8.2 Continuous Improvement Framework

Data-driven decision making based on student achievement - Using assessment results to inform curriculum review and instructional planning.

Annual curriculum review cycle - Ensuring all programs remain current, effective, and aligned with the school's mission and international best practices.

9. Conclusion

This Curriculum Policy outlines Berkeley International School's commitment to providing a robust, dual-curriculum education that integrates the rigor of Cambridge International programs with the cultural richness of the Cambodian National Curriculum. Our framework is built upon a philosophy of "Learning with Lasting Impact," designed to cultivate confident, responsible, reflective, innovative, and engaged global citizens. Through a blend of project-based learning, individualized instruction, and a comprehensive assessment strategy, we are dedicated to fostering a supportive and dynamic learning environment. This policy serves as a guide for all stakeholders, ensuring transparency and a shared understanding of our educational pathways, standards, and commitment to continuous improvement as we prepare students for success in the 21st century.
