First Aid Procedures:

Berkeley International School

In-School Procedures:

In the event of an accident resulting in injury:

The closest member of staff present at the time will assess the seriousness of the injury and seek the assistance of a qualified first-aider, if appropriate, who will provide the required first-aid treatment.
The first-aider, if called, will assess the injury and decide if any further assistance is needed from the emergency services. They will remain on the scene until help arrives.
The first-aider will also decide whether the injured person should be moved or placed in a recovery position.

If the first-aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first-aider will recommend the following steps which may need to be taken to the parents.

If emergency services are called, the campus manager, or in the case of the front desk staff will contact parents immediately.
The relevant member of staff will complete an indecent report on the same day, or as soon as is reasonably practical after an incident resulting in an injury.

Off-Site Procedures:

When taking pupils off the school premises, staff will ensure that they always have the following:

- A mobile phone.
- A portable first aid kit.
- Risk assessments will be completed by the lead member of staff before any educational visit that necessitates taking pupils off school premises.

First Aid Equipment:

A typical first aid kit in our school will include the following:

- Bandages.
- Triangular bandages.
- Adhesive tape.

- Disposable gloves.
- Antiseptic wipes.
- Plasters of assorted sizes.
- Scissors.
- Hydrogen Peroxide
- No medication is kept in first aid kits.

First aid kits are stored in:

- The front desk office.
- The school clinic

Record-Keeping and Reporting:

All incidents requiring first aid treatment will be recorded on the Incident's database by the Campus manager or in his absence, the curriculum coordinator
